Join the Afro-American Historical and Genealogical Society - Metro Atlanta Chapter and the National Archives at Atlanta for an all-day seminar featuring the premier website for family history research, Ancestry.com.

If you watched NBC's hit show, *Who Do You Think You Are?*, you know a little about the types of records on Ancestry.com but may wonder how to get started. You may not know that many of the records available through Ancestry.com are scans of original documents of the National Archives. This seminar will also help long-time family historians seeking to maximize the resources of Ancestry.com and the National Archives. This is a great opportunity to get answers to all your questions about Ancestry.com from a true insider, **Lisa Arnold**, Content Manager for Ancestry.com. In addition, **Reginald Washington**, archivist and genealogist from the National Archives in Washington D.C., will discuss the records of the Southern Claims Commission, a wonderful source for southern genealogy.
